Foreword

FOR A QUARTER OF A CENTURY, it has been our privilege to collaborate with the most prominent Architects and Decorators in the United States in the design and production of Plaster Ornament. To better facilitate our service, this revised (fourth edition) catalogue has been compiled, illustrating the selected achievements of our work.

The models shown herein are authentic types of their respective design periods and have been carefully chosen to enable the Architect to readily lay out any scheme of decoration permitting the use of ornamental plaster, especially where available funds do not permit the preparation of new designs. However it is not our purpose that these plates shall serve in this manner alone, but we also hope they will stimulate the Architect's own ideas in connection with the application of plastic ornament. To further assist him, we shall be pleased to place our designing and modeling staff at his service, or to advise with our experience, gained from many years of contact with the leaders of the profession.

That this catalogue may be of real value in the attainment of pleasing results in the use of the age-old art of the plasterer and that it may promote our many pleasant relations with the Architect, serving our mutual interest, is the earnest desire of

GENERAL TERMS—CONDITIONS—NOTES

ESTIMATES. We will submit estimates on Ornamental Plaster Work, Models for Stone and Wood-carving, Bronze or Iron Work, according to Architects' plans and will execute Ornamental Plaster Work and plain plastering in connection with the relief work anywhere; or, we will gladly co-operate with the local plastering contractor and furnish him with the necessary templates for run work, to insure a perfect fit of the enrichments and help him in every possible way in the preparation for and the erection of the ornaments.

ORDERS. In ordering, be sure to mention catalog number, plate number, and quantity required, also whether the order is to be shipped Express or Freight. When ordering Capitals, specify the diameter of the column at the neck, or the face of the pilaster and the return of the same. Quantities of Mouldings, Cornices, etc., should include at least 5% for cutting, or more than this, if numerous mitres occur. Mouldings used for enrichments on run work are cast in lengths of 15″ to 24″. Panel Mouldings, Cornices, Architraves and Beams are cast in lengths approximately 60″.

PRICES. All prices shown in this Catalog are F. O. B. Phila. and subject to a discount to the trade, when ordered in reasonable room quantities and when resold to the consumer. See Discount Schedule on pages 224 to 229 and consult quantity discount Rate Sheet, which will be sent upon request on your letterhead. This Company reserves the right to sell single pieces to be used for reproduction by others. If large quantities are required, write for estimates.

TERMS. Terms on open accounts are 30 days net, 2% for cash, if remitted within 10 days from date of invoice. Firms not having an account with us, please send bank and trade references, or remit with order.

MATERIALS. Material prices are based on fibrous plaster materials, except where otherwise noted.

For Cast Stone—(LIKESTONE) . . .	apply for prices.
For EXTERIOR COMPOLITE	add 20% to catalog prices.
For INTERIOR COMPOLITE	add 10% to catalog prices.

All fibrous plaster and Compolite ornaments will be shipped kiln dried and hard.

CAST STONE. LIKESTONE is a Portland Cement material for exterior use, having a true stone texture and similar in color to carved Limestone. Samples sent upon request.

CASTEX is a precast interior decorative material, which can be made to resemble in color and texture, Limestone, Caenstone, Briar Hill Stone, Travertine Marble, Chestnut Hill Ashlar, etc. Samples sent upon request.

"TUDOR CASTEX" is the name adopted for fibrous plaster surfaces and ornaments having an Old English Lime Stucco Texture. See Plate 1.

COMPOLITE. EXTERIOR "COMPOLITE" is a water repellent composition, and should be nailed or screwed up and painted, same as wood. Joints should be pointed with White Lead Putty, after the first coat of paint is applied.

INTERIOR "COMPOLITE" is a tough, non-shrinking fibre material, for interior decorations on wood, marble, etc. This material can be made to resemble Old Woodwork, Beams, Tracery, Antique Carved Oak Paneling, etc. The resemblance to the natural wood grain is so close that it can very well be used in connection with woodwork and finished in the same manner, and at the same time as the wood parts.

RELIEF. The term "relief" as used in this catalog indicates the extreme projection or the highest point of the ornament. The letters H, W and P indicate height, width and projection.

NOTE. Consult our Blue Folder in Standard A. I. A. File, for recent information relating to new developments and designs, specifications and technical data.

TUDOR CASTEX

In an effort to achieve plastic expressiveness in Walls and Ceilings, special study has been given to the methods and results of the Plasterer's Art which was brought to such perfection during the reign of Queen Elizabeth in sixteenth century England. As a result of this study of existing examples in England and Scotland we have found that the true texture and charming effect of the Old English Craftsman can only be duplicated by the use of the same materials and the same tools employed by these past masters in the plastic arts.

Therefore all the Old English designs shown in this book have been modeled in Lime Stucco, with plasterer's tools, and not in clay as usually done. The result is a lovely texture, crisp and full of life, with interesting little turnovers and undercuts of the modeling, as shown in the sample plate opposite. Modern methods of reproduction, highly developed and constantly practised by Voigt craftsmen, insure absolutely faithful replicas of the original models, remarkable for the complete absence of that metallic appearance of a manufacturing age. Such then is TUDOR CASTEX

This decorative material has been made and installed by us for fifteen years. It is easily assembled and erected at the building by journeymen plasterers and may be applied in sheets directly to the old plaster in an existing building or to the brown coat in a new building.

The following plates show some of our stock designs of authentic Old English Plaster work. Samples of the actual texture and full instructions and specifications will be sent upon request.
